

FOR IMMEDIATE RELEASE:

HUMMER WIND POWER, LLC TO EXHIBIT AT THE 2010 AWEA WIND CONFERENCE IN DALLAS, TEXAS MAY 23rd THROUGH THE 26TH

Fort Wayne, Indiana, February 25, 2010 – Hummer Wind Power, LLC will be an exhibitor at the 2010 AWEA Wind Conference in Dallas, Texas May 23rd through the 26th, booth number 5911.

For the second straight year Hummer Wind Power, LLC will be an attending exhibitor at an AWEA Wind Conference. This year Hummer Wind Power will be in a 10' x 20' booth and have a Hummer 5kW small wind turbine on site plus video of operational turbines and live IP feed via the internet of a Hummer 10kW in operation as well as streaming power production data.

“We are extremely excited to be attending our second AWEA Wind Convention,” said Brian Robertson, President of Hummer Wind Power, and LLC. “Last year’s convention in Chicago was phenomenal and we have the same expectations for this convention.”

Hummer Wind Power, LLC is a small wind power turbine manufacturing representative and marketing company headquartered in Fort Wayne, Indiana. The managing founders have over 75 years of collective experience in regards to manufacturing, customer experience management and marketing new technology concepts and products. Hummer Wind Power, LLC is a business member of AWEA, CANWEA and the Indiana Renewable Energy Association (INREA). For more information please visit the corporate website at www.hummerwind.com.

Anhui Hummer Dynamo Company, LTD was founded in China in 2002 and manufactures 500 Watt to 20kW small wind power turbines that integrate direct drive, patented in-the-hub power generation technology providing greater power output with less required maintenance. All small wind power turbines are grid-tied and off-grid capable with full instrumentation.
